# WILLOWOOD BUFFER

**BUFFER - ACTIVATOR • LOW FOAM**

CA Reg. No. 87290-50001

## PRINCIPAL FUNCTIONING AGENTS

Phosphoric Acid .....	10.00%
Constituents ineffective as a spray adjuvant .....	90.00%
Total .....	100.00%

(Product weight at 20° C is 8.84 lbs/gal.)

## GENERAL INFORMATION

As an additive, Willowood Buffer is effective where only buffering is a consideration. Willowood Buffer lowers the pH of pesticides solutions to a more effective level of acidity for the pesticides. This aids in preventing the decomposition of certain alkaline sensitive pesticides due to hydrolyzation. Willowood Buffer is 10% active as a buffer.

## DIRECTIONS FOR USE

Willowood Buffer may be used in dilute or concentrate sprays. Use 1 to 2 pints per 100 gallons of spray solution. In extremely hard water situations in which the desired pH level of the spray solution is 3 or below, the use of up to 6 pints of Willowood Buffer per 100 gallons of spray solution may be required.

**SHAKE WELL BEFORE USE**

## PRECAUTIONARY STATEMENT

# CAUTION

**Keep Out of Reach of Children**

Hazardous to humans and animals. Causes eye and skin irritations. Ingestion may cause nausea, vomiting, acidosis and shock. When mixing or applying agricultural sprays always wear spray goggles and impervious gloves plus protective clothing as recommended on pesticides product labels.

## FIRST AID

If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least fifteen minutes. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical treatment.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow all governmental procedures for the disposal of pesticide spray solutions. Triple rinse container, empty rinsate into spray tank. Dispose of empty container according to approved local practices; contact county agricultural commissioner for container disposal information.

## CONDITIONS OF SALE

Follow directions carefully. Timing and methods of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

This product meets E.P.A requirements under Title 40 CFR 180.1001 sub-paragraphs C and D.
